

## What is a Stormwater Illicit Discharge?

An illicit discharge is generally any discharge not composed of entirely stormwater that has the potential to impact the Township storm sewer system.

Clay Township is taking measures to identify the source of any illicit discharges to its storm sewer system. If you observe an illicit discharge please contact the Township Office or print, fill out, and return by email or fax an illicit discharge complaint form that is available on the Township website.

### **Sources of Illicit Discharges**

---

Sanitary wastewater

Effluent from septic tanks

Car wash wastewaters

Improper oil disposal

Radiator flushing disposal

Laundry wastewaters

Spills from roadway accidents

Improper disposal of auto and  
household toxics
